Munich Bar, since 2020  
Compulsory training for trainee lawyers (annual)

## **Statement**

### **competence in professional ethics and legal matters**

After two years of working within the Bavarian department of justice in various post-graduate positions I started my own law firm specialized in criminal and international (maritime) law in 2005.

Since this time I successfully guided several young lawyers through their mandatory post-graduate training before applying for a bar admission. The training includes not only practical issues of the work as a counsel but also professional ethics and disciplinary regulations executed by the competent bar association.

In addition I'm frequently representing colleagues as a defence counsel in cases of professional misconduct and in criminal investigations resulting from their work.

From September 2013 until September 2015 I have been a volunteer board member of the Munich Bar Association, which is the competent regional bar representing more than 20.600 lawyers with a bar admission in south-eastern Germany. During this time I wrote legal opinions on behalf of the Bar Association for various courts regarding counsel's remuneration, including the assessment of financial and professional misconduct.

In September 2015 I was appointed as a Judge of the Counsels' Disciplinary Court of Munich (Anwaltsgericht München) by the Bavarian Ministry of Justice. In this capacity I'm part of a board of three judges deciding on accusations of the Attorney General based on professional misconduct of counsels.

In September 2020 I was appointed as a Judge of the Bavarian Counsels' Court (Bayerischer Anwaltsgerichtshof) by the Bavarian Ministry of Justice. In this capacity I'm part of a board of five judges deciding on appeals against disciplinary decisions of three Counsels' Disciplinary Courts (Bamberg, Munich and Nuremberg) and on administrative matters like admission to the bar or it's revocation i.a..

Starting in 2020 I'm lecturer for the Munich Bar Authority on the German Code of Professional Conduct for counsel within the framework of the compulsory training for trainee lawyers.

In an international context I'm actually serving as the Alternate Commissioner at the International Criminal Court. I co-drafted the Code of Conduct for Counsel and the Constitution of the Independent Representative Body for Counsel at the Kosovo Specialist Chambers, I served three terms as the Chairperson of the Membership Committee of the ICCBA and currently I'm a member of the Professional Standards Advisory Committee of the ICCBA.

I'm co-author of a commentary on the German Federal Lawyers' Act (BRAO), working on issues of the organization of the German disciplinary court system since it's first Edition (16<sup>th</sup> Edition to be published in August 2022).

In addition I'm author of a commentary on the German Law of Cooperation with the International Criminal Court (IStGHG).

Other publications in English and German covered issues of (international) criminal law, including a handbook on the ICC Disciplinary Organs.
