Dear Counsel:

The Chamber is not available to meet until just before the summer recess. If you would like a meeting on or around 22 July 2016 to discuss security issues relating to the general conduct of the proceedings, then please inform the Chamber by way of a response to this email. Otherwise, the parties may file their security related information into the record by way of written submission.

As to transcript ICC-01/12-01/15-T-2-CONF-ENG-CT, the Single Judge has already directed that a redacted version of this transcript (redacting the contents of page 71, lines 9-25 of the English transcript, which will also be redacted when repeated on page 100 lines 3-17) can be made available to the LRV on the condition that he not share any confidential contents with his clients without seeking leave.

The Chamber is unpersuaded that the security concerns advanced by the parties in the proceedings to date – despite their seriousness - justify denying this access to the LRV himself. The LRV is subject to Article 8 of the Code of Conduct and, in the absence of any specific security concerns which justify denying the LRV access to the redacted confirmation hearing transcript, the order will not be stayed.

Best,

[REDACTED], on behalf of Trial Chamber VIII
