Subject Objet	TFV response to Registry's response Memorandum re: dedicated staff member for the verification process in the <i>Ntaganda</i> case		

Reference is made to your response memorandum of 14 July 2022, in relation to our original memorandum on the captioned subject.

We are delighted to learn about the Registry's decision to provide a dedicated resource to the TFV for the relevant tasks in the *Ntaganda* verification process, to be effective as of early 2023.

The TFV notes with appreciation the proposed modalities, including placement of the position and the role of the TFV in the necessary guidance in relation to the relevant tasks and activities. The TFV will appreciate to be involved in the selection of the resource.

Details of the arrangement, including the use of VAMS, insofar as required, and the treatment of metadata, should be best addressed when setting up the relevant protocols, which we confirm to develop in a close collaboration between the TFV Secretariat and DJS, including VPRS.

Furthermore, we confirm to jointly develop a filing in response to the Chamber's instruction, by 22 July, and to attach the series of our respective memoranda as annexes.
